

RAISON HOME

KITCHEN - BEDROOM - BATHROOM

Chez vous et avec vous

**“Design your
kitchen at home,
it’s obvious!”**

EUROPE'S NUMBER 1 NETWORK OF DESIGNERS AT HOME

www.raisonhome.co.uk

Let us design at **your home** & **with you**, your new living space

Kitchens, Bedrooms, Bathrooms and Fitted Furniture

THE KEY STATISTICS

- ➔ A team which has been established for over **20 years**
- ➔ **4,000 kitchens** installed in Europe every year
- ➔ **95%** of our clients would recommend us
- ➔ **110 home designers** in Europe
- ➔ More than **60 brands** available

“ Not having showrooms allows us to be closer to our customers... ”

To ensure that each project is unique and personalised, we have made the choice to meet our customers at their homes.

The reason that this original concept is developing is because we respond to our clients' expectations of support and advice. At your home, in a quiet place, our designers take the time to listen to you, to identify your unique requirements, to propose THE project that suits you!

Our discussions, based on trust, allow us to design your project together down to the smallest details according to your lifestyle, your style, your tastes... At your home, we evaluate the technical constraints as well as the advantages of the room in order to offer you your new "tailor-made" living space.

From design to installation, you will have one dedicated personal contact. With RAISON HOME you will be immersed in your future room thanks to virtual reality. A unique experience that you will enjoy sharing with your friends and family!

Closeness, advice, uniqueness and innovation are therefore the fundamentals of the RAISON Kitchens concept.

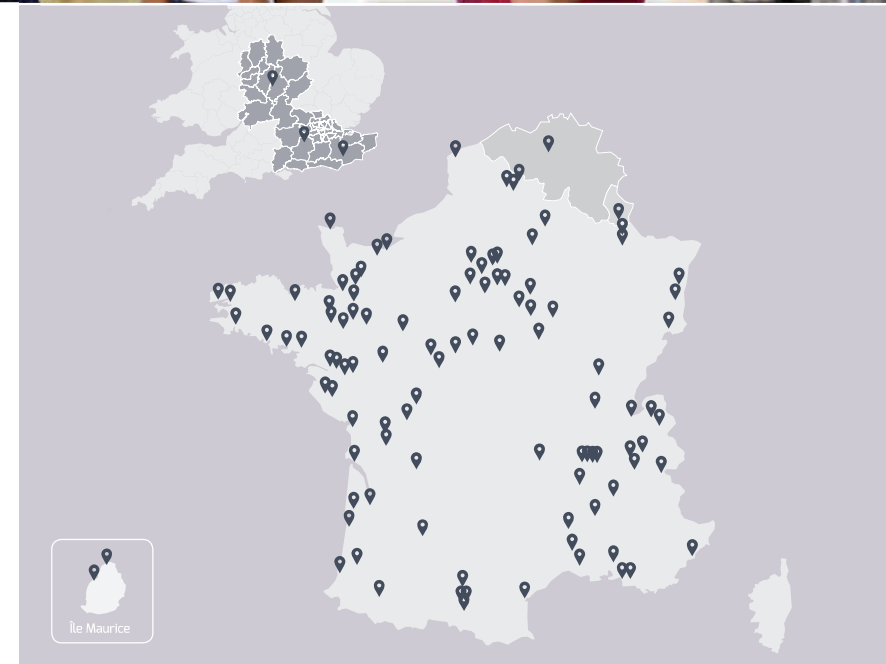

THE NETWORK

“ RAISON HOME, Europe's number 1 network of designers at home ”

As France's leading network of home kitchen, bedroom & bathroom designers with 110 home designers, RAISON HOME continues to develop and expand to become the number one in Europe.

The strength of the network is based on the experience of RAISON HOME of course, but also on the skills and involvement of all its designers who are exclusively focused on customer satisfaction.

Trained in the brand's methods and practices, our home designers are committed to respecting the RAISON HOME charter. They are regularly trained in the new trends, the regulations of the trade and the innovations to design today, the kitchens, bathrooms and bedrooms of tomorrow.

“ At RAISON HOME, our clients are our biggest ambassadors ”

Be inspired by our previous customers' designs

A real living room, the kitchen is the central heart of your home, it reflects your lifestyle.

The kitchen is the star of your home's interior, its layout, decoration and colours follow the trends and adapt to your lifestyle. The kitchen is no longer just a place to prepare meals, it is a place where you entertain your friends for dinner, where the children do their homework, where you work on the corner of the table with your mobile phone.

Each kitchen is unique and must reflect your tastes and desires. Designing your project requires making the right choices in terms of layout, materials and colours. It is also necessary to think about tailoring the storage space, the height of the worktop and to take into account the technical constraints of plumbing and electrical connections.

Ergonomics, lighting and the selection of electrical appliances are all essential elements to be discussed in order to create a kitchen that not only reflects your ideas but which you will enjoy spending time and having a good time.

Bedrooms & Bathrooms: Tailor made spaces that reflect you!

The bathroom is no longer something to be hidden, it's well equipped, beautifully designed, displaying itself and reflects your tastes and moods.

It's essential to start the day in style and end it in a good mood. The bathroom is a wellness room that deserves to be designed and decorated with care.

Work with us to make your bedroom design and storage ideas come true.

Whilst needing to be functional, the dressing room is an integral part of your decoration, its design must match your style and become your private space.

VIRTUAL REALITY

The other dimension from **RAISON HOME**

INNOVATION

Take advantage of your layout before installation, approve your choices and dive into the heart of your project!

RAISON HOME goes even further in digital innovation and allows you to experience virtual reality in your own home.

With Virtual Reality, RAISON HOME allows you to discover your new living space differently!

Abby

Call: 02477 360035

My ambition as your designer is taking the unloved or blank space you want to change, and turning it into something that not only looks good, lasts, and has wow factor, but is perfectly tailored to you to be functional for your day to day use. ***Check me out on facebook @ Raison Home - Abby Gillard***

Charmaine

Call: 01202 985144

Call me to help you conceptualise and create a stylish design that reflect your lifestyle. I will be your only contact and will see the project through from start to finish. Your 101% satisfaction is my reward. Let me make your dream a reality. ***Check me out on facebook @ Raison HOME Charmaine Ulyate***
